

Earthquake "Somewhere in U. S." Registered at Cleveland. CLEVELAND, O., Jan. 31.—Father Odenbach of St. Ignace College today

reported that the seismograph records show earthquake tremors probably local at 4:40 yesterday afternoon. He estimates the vibrations occurred within 100 miles of Cleveland.

### A Message to Mothers

YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you; the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.

Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Genuine Castoria always bears the signature of *Dr. H. Fletcher*

## NEW COMMISSION URGED FOR TASK OF RIVERSIDE PROJECT

Report to Whitman Calls for Board of Seven, Five to Be Named by Governor.

The commission appointed by Gov. Whitman to find a solution of the West Side-New York Central problem, which was taken out of the hands of the Mitchell Board of Esti-

mate, to-day made its report to the Legislature.

It is recommended that neither the Estimate Board nor the Public Service Commission be permitted to settle the West Side difficulty, but that the matter be placed entirely in the hands of a commission of seven members, including the Mayor and Comptroller, ex-officio; two members of the Public Service Commission of the First District, to be designated by the Governor, and three additional members, two of whom must live in New York City and one of whom shall be designated by the Governor.

Thus it will be seen that the Governor by virtue of his appointive powers would control the commission.

The new commission, whose decision would be final and not subject to either the approval of the Governor or the Legislature, would have the right to effect any of the following plans:

"First: The construction of a municipal terminal system by the city in agreement with the various railroads; or

"Second—The arrangement of a unified joint terminal system on the west side of Manhattan by agreement with the New York Central Railroad and other railroad and transportation companies concerned; or the construction of such terminal system by a private terminal company; or

"Third—By imposing, if necessary, compulsion upon the various railroads to require them to construct and operate all necessary terminal facilities, or if such facilities have been constructed."

"The Act which would create the new Commission contemplates a body 'amply equipped with powers to secure the necessary terminal facilities and the removal of tracks from the surface of streets and parks in New York City, either by contract or compulsion.' It also provides:

"1. A subway or elevated freight terminal system along the west side beginning at 60th Street and continuing south as far below Canal Street as traffic may require, with intermediate gone stations; this system to be used by all railroads delivering freight on the west side of Manhattan."

"2. A tunnel or tunnels under the Hudson River to handle New York City freight, connecting classification yards in New Jersey with the terminal system in Manhattan."

"3. Through Riverside Park, tracks of the New York Central should not be extended east of the present right of way, should be covered and depressed to a depth determined upon by engineers as feasible in view of the waterfront and operating conditions. All improvements along the riverfront from 72d Street to Spuyten Duyvil should be arranged with full consideration of parks and residential requirements."

"4. Any enlargement of the trackage north of 60th Street should be made with due regard to the needs of the increasing population of Harlem and the Bronx, and to the question of local and suburban passenger service on the west side."

"5. The Manhattanville yards should be located east of the main line tracks."

"6. Steam as a motive power in New York City should be eliminated."

"7. All railroad tracks on the West Side of Manhattan along the streets and avenues should be removed from street level."

"8. The city's policy of owning the waterfront should be enforced and extended, and provision should be made for unobstructed access along streets to the waterfront as public needs require."

"9. Consideration of a plan for store-door delivery by motor trucks, to work in harmony with the terminal system."

"10. Provision as to the location of terminal markets."

"11. Provision as to the enlargement of the terminal facilities to cover other sections of the city, and to fit in with any general plan of the port."

"12. Pending execution of comprehensive plans, any adjustment of action involving the rights and facilities of the New York Central Railroad should be in harmony with the foregoing features."

"If authority is vested in a commission, as proposed in this report, your commission believes that it can be demonstrated to all railroads delivering freight along the west side of Manhattan, that it would be to their advantage to co-operate in a plan for joint terminal facilities. This commission also believes that the operation of such facilities on the Island of Manhattan can be completed, on proper terms, by State and Federal authorities."

"The commission is of the opinion that the city of New York should develop a municipally owned freight terminal system as above outlined."

**FIERO OUT OF 'CHANGE.'**

Broker Expelled for Violation of Trade Rules.

Raymond H. Fiero of 11 E. Fifth St. was expelled to-day from the New York stock exchange. This action followed accusations of conduct inconsistent with just and equitable principles of trade brought against him a short time ago by the governing committee of the exchange. Members of the committee, after hearing the charges, decided that he be expelled from the exchange. Fiero's attorneys instituted an injunction proceeding against the exchange restraining the governing committee from announcing the expulsion of his client.

Supreme Court Judge Bijur yesterday denied the application for an injunction on the ground that no evidence as to will or prejudice had been shown.

Wilson Terms Supported in Argentina. BUENOS AIRES, Jan. 31.—What President Wilson says constitutes the same base as we ourselves have received in regard to the action and spirit of the United States. La Nación, leading Buenos Aires newspaper, declared to-day, discussing President Wilson's letter on America's aims.

## 56,000 Manhattan Children Victims of Malnutrition Need the Penny Lunches

### How to Send Money Contributions To Evening World School Lunch Fund

Send your contributions to the "School Children's Lunch Fund," care of The Evening World.

Every contribution received, no matter how small, will make it possible for undernourished school children to receive wholesome, nutritious lunches.

No money is made in any way.

Everything is furnished at cost.

No child is pauperized.

Every case investigated by school authorities.

Superintendent of Bureau of Welfare of School Children Says Lack of Food Retards Education of the Children of the Poor—Financial Aid Is Needed at Once.

Over 56,000 children in Manhattan are to-day suffering from malnutrition.

Edward F. Brown, who, as Superintendent of the Bureau of Welfare of School Children of the Association for Improving the Condition of the Poor, co-operated with The Evening World when it extended the penny lunch system in the schools and created a central kitchen feeding 25,000 children, explains the situation as follows:

"Malnutrition may arise either from lack of food or from the defects in the quality or preparation of the food consumed. The majority of cases at present, however, is due to lack of food, since the high cost of living has made it difficult in many homes to avoid underfeeding."

"Whatever the cause, it is only too evident that the child who is suffering from malnutrition cannot concentrate the mind, cannot study, is not a fit subject for the educative process."

"Hence arises the necessity for supplying wholesome food within the school building in our congested neighborhoods. The penny lunches fill this want as far as possible with the present equipment."

However, the aim of the present fund is to reach those children who have no pennies with which to buy and who are so undernourished that a morning service of milk and crackers must be provided to sustain them.

### BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is dull or aching; if what you eat sours and forms gas and acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poison. Gases and sour bile before putting more food into the stomach. To feel like young folks feel; like you felt before your blood, nerves and muscles became loaded with bulky impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.—Adv.

### TODAY'S BEAUTY TALK

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your pharmacist's a package of Capthrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the top of the head. Your shampoo is now ready. Just pour a little at a time on the scalp and hair until both are entirely covered by the dainty perfume. Then prepare the hair by thoroughly dissolving and removing every bit of dandruff, excess oil and dirt. After rinsing, the hair dries quickly with a fluffiness that makes it seem heavier than it is, and takes on a rich lustre and a softness that makes arranging it a pleasure.—Adv.

### BELL-ANS FOR INDIGESTION

6 BELL-ANS Hot water Sure Relief

## CANADA PLANS PARTIAL RAILROAD OWNERSHIP

Lines Probably Will Be Grouped Into Two Great Systems Under Government Control.

OTTAWA, Ont., Jan. 31.—Canada's wartime railroad problem probably will be solved by partial Government ownership. Although the Railway Committee, now considering the problem has not yet submitted any definite plan for solution to the Cabinet, prevailing sentiment is that the Canadian roads will be grouped into two great systems.

One of these will be owned and operated by the Government while the other will be operated in co-ordination with the Government system during the war and the immediate reconstruction period. The Government system, it is believed, will comprise the Intercolonial, the Transcontinental, Canadian Northern, Grand Trunk and Grand Trunk Pacific.

Meanwhile the Canadian Pacific will remain as it is with its operation co-ordinated with the Government system.

## FELT LIKE A NEW PERSON

After Taking Only One Box of "Fruit-a-lives"

East Ship Harbour, N. B. "It is with great pleasure that I write to tell you of the wonderful benefits I have received from taking 'Fruit-a-lives.' For years I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried 'Fruit-a-lives' and the effect was splendid. After taking one box, I feel like a new person, to have relief from those sickening Headaches."

Mrs. MARTHA DEWOLFE, 50c. a box, 4 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ogdensburg, N. Y.—Adv.

BOYS' CLOTHING DEPARTMENT—FIFTH FLOOR

## WANAMAKER'S

Tomorrow, Friday---in New York and Philadelphia  
FEBRUARY FURNITURE SALE  
Opens Officially at Wanamaker's

A Two-Million Dollar Furniture Service with  
February Prices Reduced 10 to 50 Per Cent.

"You're talking in big figures these days," a friend reminded us.

Yes, we're talking about a big thing. The February Sale of Furniture is the biggest thing of its kind in the world.

"But you've gone up from one million to two millions."

Yes, because now we are speaking of the furniture stock of two Stores, New York and Philadelphia—more than a million dollars in each.

And these combined stocks—more than two million dollars' worth—form the buying power which makes the Wanamaker February Sale of Furniture without serious competition.

To be exact—for this New York store alone we have prepared for the February Sale one million, one hundred and thirty-eight thousand, three hundred and forty-eight dollars (\$1,138,348) of furniture—all to be offered during February at 10 to 50 per cent. under our normal prices.

Every piece of home furniture on our floors is included in the Sale. Nothing is reserved.

Of course, we cannot show at one time a million dollars of furniture. But practically the entire stock is represented by samples on our display floors—with reserve stock in our warehouses and on the way from the factories.

The display floors are large. The aisles are narrow—and we are sorry for this. In some places tables are piled one on top of the other. The furniture is "packed in" as tight as we can pack it and still show it—and among it all, with possibly a half dozen exceptions, you will find no two pieces nor two suites alike.

We have sacrificed everything—artistic set-ups, methodical display, even the House Palatial (where the rooms are also crowded with furniture), so that we might exhibit

samples of the great volume of furniture we now have ready.

See for yourself!

You can't begin to comprehend what a million dollars of furniture means until your eyes actually begin to see it—to see the samples—one of a kind—and to see on the reverse side of the February tags the stock back of these samples.

You cannot comprehend what this February Sale means to YOU—if you need furniture—until you come and see the furniture itself and the prices.

Tonight we send this message

- to all home-makers,
- to brides who expect to become home-makers,
- to brides of long ago whose children have now grown up to better furniture,
- to managers of hotels, furnished apartments, boarding houses,
- to those who do purchasing for clubs and institutions,
- to artists and lovers of all that's beautiful and refined in the material settings of life,
- to sensible people generally—

February is the best winter month for buying furniture because prices are now lowered 10 to 50 per cent.;

—Wanamaker's is the best place to buy furniture because the largest variety of good furniture and the best values in all grades are to be found here.

Fifth, Sixth and Eighth Galleries, New Building
